

## USE THE WIDGETS ON THE HOME PAGE OF THE BRITISH FENCING WEBSITE TO LINK TO YOUR FAVOURITE RANKINGS PAGES

At the bottom of the BF home page there is a ribbon of **WIDGETS** headed **CUSTOMISE YOUR FEEDS** with a slider bar below. Slide this bar from side to side to see all the widgets that are currently available. There is now a widget for each rankings page of the six GB epee squads (SME, SWE, JME, JWE, CME, CWE).

To raise your favourite widgets up to the main area of the home page you simply click the **BLUE PLUS** symbol in the top right hand corner of a widget on the ribbon.

To send a widget back to the ribbon simply click the **BLUE CROSS** in the top right hand corner of a widget.

Widgets in the main area can be moved around like tiles by moving the cursor over the blue head band, holding down the left hand mouse key and dragging them to a new position.

Each **rankings widget** links to the respective **rankings page** where you will find the rankings or links to locations where they can be downloaded or found.

From each rankings page there is a link to the **GB EPEE** page. Explore this page. It has links to most of the information you will need in relation to the international GB epee squads.

On the **GB EPEE** page there are some common links in the introduction, then under the six squad headings (e.g. Senior Men, Junior Women) there are three clear indications of what the links do:

- Download**      when it is a document
- Link to**        when it is to another BF website page
- External link to**   when it is to an external site

This page forms a hub from which you should be able to find quickly most of the information you need whether on internal pages or external pages. You should be able to reach this page in just two clicks via a widget and the rankings page or you could bookmark it.

I trust this answers some of the questions about finding the information you need. If not please ask the appropriate Weapon Captain or any member of the Epee Committee.

With acknowledgement to Kim Robinson at HQ for her assistance in making these recent changes and to Stephen Agostino for help with the widgets.

John Haynes, Epee Committee Chair
